

# ROANOKE COUNTY SYSTEM OF ENVIRONMENTAL MANAGEMENT

## Objectives and Targets

**Significant Aspect:** Hazardous Waste and Chemical Use  
**Objective:** Reduce or eliminate the impact of toxic and hazardous materials  
**Target 4.1:** To conduct an inventory of specific chemicals and hazardous materials currently in use by Roanoke County departments

### CONSIDERATIONS FOR ESTABLISHING THE OBJECTIVE AND TARGET

**Policy Component:** Manages potential impacts, conforms to Environmental Laws

**Technological Options:** Computer database

**Business/Financial Considerations:** Eliminate need for costly clean-ups or disposal

**Views of Interested Parties:** Citizens, Clean Valley Council

**Legal Requirements:** RCRA, SARA Title III

**Significant Aspect:** Hazardous Waste and Chemical Use

### ENVIRONMENTAL MANAGEMENT PROGRAM TO ACHIEVE THE OBJECTIVES AND TARGETS:

**Person(s) Responsible:** Ken Cabarle, Jeff Balon, Bob Jernigan

**Date Due:** Inventory completed by 8/31/03.

**Means:** TBD

**Methods:** Working with departments to gather inventory information and identify chemicals.

### Significant Aspect Requirements:

1. **Monitor/Measurement Method:** Conduct inventory and determine annual quantities after identification.
2. **Operational Control Procedure:** Operational controls will be developed from strategy identified in Target 4.2.
3. **Competence of Personnel Who May Create a Significant Impact:**
4. **Training:** Identify job positions in which the work can cause a significant impact from using or disposing of toxic materials; establish measure of competence; determine deficiencies in training; conduct training if the deficiencies can be remedied through additional training; test or evaluate the training provided.
